Description

Product No.: 150316

€57.00*

excluding VAT

ALSIDENT pipe nozzle NW 50 (AS), antistatic,

The bevelled shape of the tube nozzle ensures high efficiency, as it can be positioned directly at the source without obstructing the work process.

The chromated aluminium tube nozzle (TCP) was developed for spot extraction in sensitive, antistatic ESD areas.

Properties

Length (mm):	210
Weight (kg):	0.6
Diameter (mm):	50
