Extension set H13 filter for FilterCube 4

The expansion stage consists of a housing W x D x H=800 x 800 x 500 mm (coated in RAL 7016) with an H13 filter and a seal seat lifting device. The filter is monitored separately by means of a pressure difference. The system issues a message when the filter is saturated. May only be used in conjunction with a new FilterCube. Cannot be retrofitted.

Properties

Width (mm):	800
